ABOUT THIS DOCUMENT

This TMD applies to the Comprehensive Pleasure Craft & Personal Water Craft Insurance described in CI-PC-1221 Product Disclosure Statement and Policy Wording Document dated 1 December 2021 and any applicable Supplementary Product Disclosure Statement (together the PDS). The TMD seeks to offer customers, distributors and employees an understanding of the class of customers for which this product has been designed, considering their likely needs, objectives and financial situation. This TMD describes the circumstances in which we believe the product is likely to be suitable. Customers who fit those circumstances are collectively called our target market.

This TMD does not take anyone's personal circumstances into account, nor does it form a part of the terms of cover. In addition to the key eligibility requirements outlined in this TMD, it is also subject to acceptance criteria and the TMD does not include all the factors we consider when we decide whether to issue insurance.

Customers must refer to the PDS and any supplementary document(s), which outline the relevant terms, conditions, exclusions, excesses, your rights and obligations and insurance cover being provided under the product, when making a decision about this product. We recommend that customers contact their broker or distribution partner and read the relevant PDS for full details on cover to determine whether the product is appropriate for their objectives, financial situation and needs.

YOUR EXCESS

When we pay a claim, you normally pay an excess. The product includes a number of different excesses that apply in various circumstances.

One type of excess is called the basic excess. When you buy a policy, you can choose your basic excess from a range of options to suit your needs. A lower basic excess may save you money if you claim on the policy but would normally increase the premium you pay to buy the policy. A higher basic excess may reduce your premium but could cost you more if you have a claim. You will need to consider whether you can pay the higher excess at the time of the claim.

FINANCIAL SITUATION

Our target market is a person who is able to pay premiums in accordance with the chosen premium structure, excess, fees and government charges, having regard to personal circumstances and vulnerability or hardship considerations.

Relevant financial situation considerations include:

- Ability to choose to pay your premium annually or by instalment.

CONSISTENCY WITH THE TARGET MARKET

The insurance product including its key attributes is likely to be consistent with the likely objectives, financial situation and needs of the class of customers in the target market, as we consider that it provides the required type of cover for that class of customers. Individual customers will need to consider whether this product meets their specific objectives, financial situation and needs.
